AI software engineer building voice AI systems, evaluation tooling, scheduling integrations, and developer tools.

EXPERIENCE

TechAhead — AI Software Engineer, Hoag Medical Group

Oct 2025 – Present

- Ship Hoag's scheduling voice agents and the versioned configuration, drift checks, evaluations, and release pipeline behind them.
- Build routing, scheduling integrations, and call-analysis tools that reconcile agent output with transcript and tool evidence.
- Extend the scheduling bridge with FHIR batch operations, combo appointments, retryable validation, fuzzy location matching, and incident-inspection tooling.

TechAhead — Client Solutions Architect

Apr 2025 – Present

- Turn early product requirements into AI and backend prototypes, system designs, and delivery plans.

Teaching Solved — Founding Engineer

Aug 2024 – Mar 2025

- Built the first version of an educator platform with Next.js, PostgreSQL, AWS, and retrieval-assisted search.

InduzBuy — Software Engineer Intern

May 2023 – Aug 2023

- Moved a PHP commerce platform to Laravel and built a BERT classifier for catalog data.

ICICI Lombard GIC — Software Engineer

Oct 2019 – Aug 2022

- Split insurance services for independent scaling and built a Neo4j rules engine for premium calculations.

SELECTED PROJECTS

Cloudflare Devkit — Bun and TypeScript scaffolds plus reusable GitHub Actions for Workers, Hono APIs, scheduled jobs, D1, and R2. github.com/adhipk/cloudflare-devkit

Dotlocal — Local-first editor and publisher for data stories, with Marimo WASM notebooks and Cloudflare publishing.

Hyperspace — HTML-first workspace for coding-agent sessions, live task state, and project artifacts over SSE.

SKILLS

AI: Voice agents, agent orchestration, LLM evaluations, RAG, observability · **Backend & data:** TypeScript, Bun/Node.js, Python, Java, NestJS, Hono, FHIR, PostgreSQL, SQLite, DuckDB · **Platforms:** Cloudflare Workers, AWS, Docker, GitHub Actions, Terraform, React, Next.js

EDUCATION

M.S. Computer Science, Arizona State University

2022 – 2024

B.Sc. Mechanical Engineering, Minor in Computer Science, PES University

2015 – 2019
